

## FlexGrip 140/25

The FlexGrip nozzle is a basic oval nozzle for single exhaust pipes. The opening is sufficiently narrow and stiff to grip tight without any other type of activation. The upper lip is thin and flexible, whereas the lower lip is so thick that it closes the opening when not in use.

Prod no.	Nozzle type	Size	Hose Connector		Exhaust pipe	Weight [gram]	Works temp.	Application
			Diam.	Bend				
220141	Oval	140/25	3"	Straight	Ø20/Ø76	560	Up to +150°C	The FlexGrip is available for personal cars and is operated by just one hand.
220142	Oval	140/25	4"	Straight	Ø20/Ø76	520	Up to +150°C
