

R3130 3/8" and R3150 1/2" 20V Ratchet Wrenches

Engineered to the same high standards as all IQ^{V20} Series cordless tools, the Ingersoll Rand R3130 3/8" and R3150 1/2" 20V ratchet wrenches are your tools to get the job done when you need exceptional power, portability, access, and time-saving performance. These tools are ideal for a wide range of applications—from engine repair and under-car work to light industrial maintenance, repair and operations (MRO).

R3130 3/8"

Proven engineered head is same durable ratchet head used in our air-powered ratchet, so it stands up to the toughest professional use

Patent-pending metal and composite construction makes this tool lightweight, yet strong for easy operation and protection against repeated drops

All metal gear train for long-life durability

Compact and durable motor delivers up to **73 Nm (54 ft-lb)** for power and optimal long life performance

Ergonomic handle and comfort grip help reduce vibration and fatigue as well as enhances user comfort during extended use

Variable speed trigger provides maximum control of the tool

Unique slim-line design provides easy access in tight spots, where you can get your arm, you can get your ratchet

Rubber over-molded grip on inside of handle provides soft-mount for the switch

20V lithium-ion battery features high power and extended life

Industry Applications
